

Amendments

In the Specification:

Please replace paragraph [0031] with the following paragraph. The new paragraph is shown with additions underlined and deletions in ~~striketrough-text~~. No new matter is added by these amendments.

The mount system 120 includes a lock 150 that is configured to lock the first mount 140 with respect to the support member 130. In one embodiment, the lock 150 includes a first lock knob 152 disposed on a first side 122 of the mount system 120 and a second lock knob 154 disposed on a second and opposite side 124 of the mount system 120. A pin 156 extends through elongated openings 126 and 128 disposed on a first side 159~~158~~ of the first mount 140 and a second side 160 of the first mount 140, respectively. The pin 156 also extends through the collar 148 of the mount system 120.
